Experience

UI/UX Designer

NOS - Hilversum, the Netherlands | Apr 2022 - present

Responsible for the overall visual design and user experience of the NOS Jeugdjournaal app, NOS Jeugdjournaal website, and NOS Stories website.

- Collaborate closely with a product owner and a multidisciplinary team of app and web engineers to refine designs and ensure full alignment with accessibility standards
- Partner with research teams and coordinate a youth panel to conduct user research and usability testing, both online and in-person
- Prototype concepts using AI-assisted tooling for use in usability test sessions
- Facilitate workshops with senior and executive stakeholders to gather feedback and iterate on design concepts
- Maintain a modular component library to ensure brand consistency across platforms

Junior Digital Designer

Bravoure - Amsterdam, the Netherlands | Jul 2020 - Apr 2022

Designed websites and UX flows for clients across a range of industries, from festival events such as ADE, Lowlands and Awakenings, to companies focusing on green energy.

- Collaborated within a multidisciplinary design team — including a creative director, art director, lead UX designer, and senior digital designer — to translate business goals into tangible products under tight deadlines
- Supported executives in preparing keynote presentations used during client pitches
- Assisted senior designers in a fast-paced environment, taking on tasks such as producing first drafts and ensuring designs were fully responsive
- Designed marketing assets for ongoing client campaigns as well as internal products, including the company website and social media
- Worked closely with web engineers to deliver production-ready designs

UX Data Visualisation Graduation Intern

30MHz - Amsterdam, The Netherlands | Jan 2020 - Jul 2020

Redesigned the dashboard to deliver personalised data visualisation for greenhouse growers.

- Facilitated company-wide workshops to build a shared understanding of product goals.
- Applied a human-centered design approach to conduct user research and usability testing, using findings to inform design decisions.
- Designed a clickable prototype to gather stakeholder feedback and finalize the redesign.

Experience

Visual & Interaction Design Intern

Hike One - Rotterdam, The Netherlands | Sep 2018 - Jan 2019

Collaborated with the design team to design a responsive app enabling stakeholders to monitor and reserve rooms within a building using connected accessories.

- Conducted competitive analysis to inform component requirements and information architecture.
- Designed atomic components to extend the design system.
- Designed a high-fidelity prototype with motion to establish animation guidelines for atomic components.
